

Karan Sharma

Full Stack Developer | B.tech Computer Science

karanx11.72898@gmail.com | +91 7289052873 | [LinkedIn](#) | [GitHub](#)

Professional Summary

Enthusiastic Full-Stack and Flutter Developer with hands-on experience building responsive web and mobile applications using modern frameworks. Proficient in React.js and Flutter for frontend development, and skilled in backend integration with Node.js, Express.js, and databases including MongoDB, Firebase, and Supabase. Passionate about delivering scalable, user-friendly, real-world solutions through clean architecture and efficient code practices.

Education

Babu Banarasi Das Institute of Technology and Management

B.Tech in Computer Science and Engineering (AI & ML)

2023 – 2027

Affiliated to AKTU

Technical Skills

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Mobile Development: Flutter

Backend: Node.js, Express.js, MERN Stack

Databases: MongoDB, Firebase, Supabase

Languages: JavaScript, Java

Tools & Concepts: Git, GitHub, REST APIs, Object-Oriented Programming (OOP)

Projects

1. RentKaro – Full-Stack Rental Marketplace

GitHub

Tech Stack: React.js, Vite, Node.js, Express.js, MongoDB, REST APIs

- Developed a scalable full-stack rental marketplace platform using the MERN stack with a responsive React + Vite frontend and RESTful APIs powered by Node.js, Express.js, and MongoDB.
- Integrated an AI-powered chatbot to automate user query handling and improve engagement by reducing response time for common support requests.
- Designed a modular authentication-ready architecture with role-based access control patterns, ensuring scalability and future-ready user management support.

2. Hostel Pass App – Role-Based Digital Pass Management System

GitHub

Tech Stack: Flutter, Supabase, QR Code Generation

- Developed a multi-role Flutter application for students, wardens, and security guards with dedicated dashboards and responsive cross-platform UI.
- Built a digital hostel pass system with real-time approval/rejection workflows, significantly reducing manual paperwork and administrative effort.
- Integrated secure QR code-based verification and leveraged Supabase for authentication, relational database management, and real-time data synchronization.

Achievements & Certifications

- **NPTEL – Google Cloud Computing Foundations:** Scored 65%, demonstrating proficiency in cloud infrastructure and services.
- **AKTU Zonals RoboRace:** Secured **3rd Prize** in a competitive inter-college robotics racing event.
- **Robo Workshop:** Awarded **1st Prize** for outstanding performance in robotics workshop activities.
- **Innovate X (Idea Pitching Competition):** Secured **2nd Prize** for presenting an innovative product concept to a panel of judges.
